PROFILE SUMMARY

Motivated B.Tech student with a strong foundation in Python, C, C++, Core Java, SQL, and web technologies (HTML, CSS), along with data analytics tools including Tableau, Power BI, and Excel. Currently interning as a Cloud and DevOps Engineer on an AWS Cloud Computing project. Experienced in building data-driven projects including an Electric Vehicle Population Analysis, a Classic Model Power BI dashboard, and a Personal Finance Tracking System. Comfortable working with structured datasets, identifying trends, and translating information into clear, user-friendly outputs. Seeking an entry-level opportunity as a Data Analyst or Software/Web Developer to apply analytical thinking, programming skills, and attention to detail to real-world problems.

PROFESSIONAL SKILLS

- **Programming & Analysis:** Python, C, C++, Core Java, SQL
- **Data Analytics:** Data categorization, trend identification, data visualization, monthly reporting
- **Data Visualization & BI Tools:** Tableau, Power BI, Excel
- **Web Technologies:** HTML, CSS, JavaScript, REST APIs, Node.js basics
- **Cloud & DevOps:** AWS Services, Linux/Ubuntu, Git & GitHub

EXPERIENCE

- Cloud and DevOps Engineer — Intern, Weltsphere Technologies Pvt Ltd** Jun 2026 – Dec 2026
- Working on an AWS Cloud Computing project as part of a Cloud and DevOps internship.
 - Gaining hands-on exposure to cloud infrastructure concepts and DevOps practices in a live project environment.

PROJECTS

Electric Vehicle Population Analysis (Tableau)

- Analyzed a 10,000+ record electric vehicle registration dataset (make, model, model year, EV type, electric range, location) using Tableau.
- Built an interactive geographic map visualizing vehicle distribution by county, city, and state; created breakdown views by make/model, model year, and vehicle type.

Classic Model Sales Dashboard (Power BI) — github.com/himanshi482/Classic-Model-PowerBI

- Developed an interactive Power BI dashboard on the Classic Models dataset to track sales performance, margins, and key business metrics.

Personal Finance Tracking System (Pulse Finance Tracker) — github.com/himanshi482/Pulse_Finance_Tracker

- Built a full-stack system to manage income, expenses, and savings with categorized tracking, monthly reports, and dynamic financial visualization.

EDUCATION

- G H. Raisonni University, Amravati — B.Tech** 2023 – 2027
- Sindhi Hindi Junior College — Higher Secondary Education (12th)** 2022
- KTR School — Secondary Education (10th)** 2020

CERTIFICATIONS & SOFT SKILLS

- **AI Prompt Engineering Internship Selection** — InAmigos Foundation (Internshala)
- **Data Analysis | SQL, Tableau, Power BI & Excel | Real Projects** — Udemy
- **Core Java** — Internshala
- **Cyber Job Simulation** — Deloitte
- **Soft Skills:** Problem Solving, Communication, Teamwork, Analytical Thinking, Adaptability, Time Management
